Relationship between possessions and goals

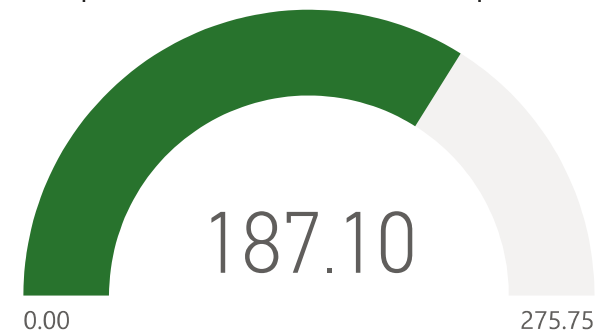

Top 10 squads' rate of Possession, Goals and Assists

The outcome of a football game is determined by goals. Some goals can be a result of a penalty while some are not. Extra time can be given depending on the time wasted during the match if the match ended goalless or extra time for penalty kicks.

Across all top 10squad, Goals ranged from 34 to 135, Penalties attempted ranged from 1 to 9, and penalties scored ranged from 0 to 8. The USA accounted for 19.85% of goals of the total goals. Goals and total Penalties attempted are positively correlated with each other. Goals within 90 minutes are only about 20% of the total goals in the game. At 135, the USA had the highest Goals and was 297.06% higher than Canada, which had 34. Brazil had the highest Sum of possession (280.10).
